PROFILE

I am Mohammed Asan, currently pursuing my Bachelor of Engineering in Computer Science and Engineering at Sri Shakthi Institute of Engineering and Technology. As an aspiring software developer and Fullstack Developer, I am passionate about leveraging technology to solve real-world problems and create innovative solutions. I strive to continuously expand my knowledge and skills in the field, with a strong focus on software development principles and practices.

PROJECTS

- **Artisan Wonders**
  E-commerce Website   2030 - PRESENT
  - **Description:** I designed and developed a dynamic e-commerce website using React.js as the frontend framework and created a custom API to handle the backend functionality.
  - Monitor brand consistency across marketing channels and materials.

- **Java Snake Game:**   2025 - 2029
  Classic Fun with Object-Oriented Programming
  - Description: Step into the world of classic gaming nostalgia with my Java Snake game, a project that merges timeless gameplay with modern programming techniques. Developed using Java and object-oriented programming (OOP) principles, this game showcases my proficiency in Java development and game design.

- **React.js Rock Paper Scissors Game**   2024 - 2025
  A Classic Reinvented
  - Description: Dive into the timeless fun of Rock Paper Scissors with a modern twist. Developed entirely in React.js, this project showcases my expertise in front-end development, user interaction, and creating engaging games.

COURSES&CERTIFICATION

Completed Post Graduate Diploma in Computer Application
